## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-5, 155-158, 288-292, drawn to an integrated security and communications system, classified in class 379, subclass 39.
  - II. Claims 6-88, 159-236, 293-375, drawn to a security system with voice mail functionality, classified in class 379, subclass 39.
  - III. Claims 89-153, 237-271, 376-416, drawn to a security system with electronic mail messaging, classified in class 379, subclass 39.
  - IV. Claims 154, 272-287, 417-441, drawn to a secure communications system, classified in class 379, subclass 93.02.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as in a security system without voice mail functionality (invention II), electronic mail messaging (invention III) or encryption processing (invention IV). See MPEP § 806.05(d).

2. Because these inventions are distinct for the reasons given above and the search required for each of Groups I, II, III or IV is not required for the remaining groups, restriction for examination purposes as indicated is proper.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
